Grade 7 Overnight Trip Information

Research and experience tell us that off-campus, hands-on experiences when students go away together to cooperate over a period of days, significantly adds to their middle years’ experience. Staying overnight bonds students, allows them to explore curricular topics in great depth, and allows them to develop perspectives and connections that add immeasurably to the classroom experience.

This fall the 7th grade is changing locations of our trip. We are going to Philadelphia for two days and one night on Sept 26th and 27th. The trip still includes similar aspects of our previous trips to Camp Quinipet - team building experiences, science related study and fun.

Liz Traub, the 7th grade Dean, will be contacting you in the fall about the trip and forms that will need to be filled out.
